Context as Other Minds—subtitled The Pragmatics of Sociality, Cognition and Communication—is a book by Talmy Givón published by John Benjamins in 2005. The book presents a model of human linguistic communication based on the idea that language is an evolutionary
adaptation, where speakers address themselves to the context of minds they believe to be similar to their own.

Context as Other Minds: The Pragmatics of Sociality, Cognition and Communication

The construed context of social interaction
and communication is thus a mental representation of other minds. Following a condensed intellectual history of pragmatics, the book investigates the adaptive pragmatics of lexical-semantic categories — the 1st-order framing of “reality”, what cognitive psychologists call “semantic memory”. Utilizing the network model, the book then takes a fresh
look at the adaptive underpinnings of metaphoric meaning. The core chapters of the book outline ...
